

Thuraya XT-Pro Satellite Phone

Brand: THURAYA
Product Code: XT-Pro
Availability: upon request

Price: Fr. 1298.00

Ex Tax: Fr. 1200.74

Short Description

THURAYA says: "The world's most advanced satellite phone".

Description

Small enough to fit in your pocket, the Thuraya XT-PRO is jet water and dust resistant as well as shock proof.

Long Talk Time

Thuraya's XT-PRO offers a talk-time of up to 9 hours and has a standby time of up to 100 hours providing you with reliable and robust communications wherever you need it.

Advanced Navigation

With the Thuraya XT-PRO, you can choose your preferred navigation system and select between GPS, BeiDou and Glonass for highest accuracy and added security in every region.

Dedicated SOS button

For those who find themselves in times of distress, the Thuraya XT-PRO features

an easy to use dedicated SOS button which can be used even when the satellite phone is switched off. All you have to do is press and hold the SOS button for 3 seconds. This will start the phone and sends an alert (a call and/or an SMS) to any pre-programmed number.

Glare resistant Gorilla® glass display

The XT-PRO satellite phone is designed for the harshest of environments. It is built with toughened glass and with a customized outdoor display for easy visibility even in direct sunlight.

Connect anyway you want

With the Thuraya XT-PRO satellite phone, you can make calls, send SMS and fax messages. What's more, you can connect your laptop or PC to access the internet in satellite mode whenever terrestrial networks are unavailable.

Walk-and-Talk

The Thuraya X5-Touch facilitates reliable and efficient walk-and-talk communications due to the combination of high performance satellites from Thuraya's network and an omni-directional antenna designed to ensure enhanced mobility.

Compact and rugged design

Small enough to fit in your pocket, the Thuraya XT-PRO is jet water and dust resistant as well as shock proof.

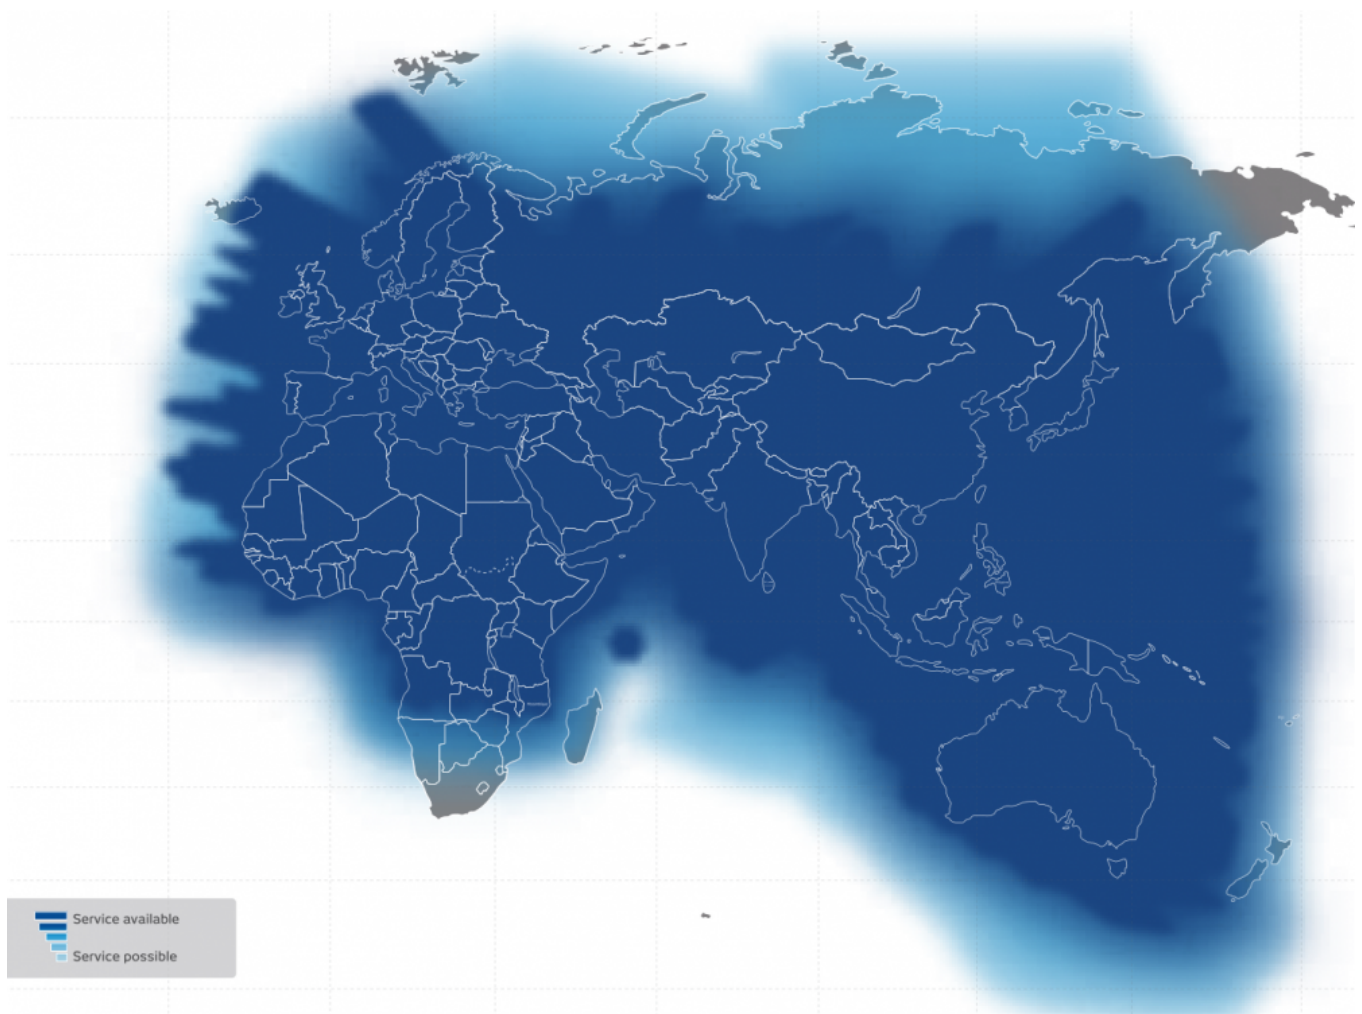

Additional features

For convenience, we've added additional features to your satellite phone. These include: a speakerphone, an address book, alarms, a calculator, a calendar, call logs, conference calls, contact groups, speed dialing, a stopwatch, world times and much more.

Satellite Coverage Map

Note:

Please note that your satellite phone must always have a **direct, undisturbed line of sight to one of the Thuraya satellites** in order to guarantee a stable connection (unless you have a terrestrial GSM connection). **Buildings, trees and mountains represent massive obstacles** that can hardly be penetrated. The satellites are roughly above the Indian Ocean.

Specifications
